

# 2021 Score Discipline Provisional Change

## 1. CUSTOM HEAVY CLASS

Purpose is to encourage new shooters that may not have an IBS VFS rifle to attend and compete amongst themselves in a NEW class of rifles.

Allow rifles up to 22 pounds.

Allow cartridges up to 70 grains capacity.

Allow caliber up to .458”.

Allow stocks designed for other shooting disciplines.

Muzzle brakes will NOT be allowed.

This will allow shooters with long range and F-class rifles to give VFS shooting a try with their current rifles.

This provisional period during 2021 for the CUSTOM HEAVY CLASS will NOT accumulate any shooter of the year points or IBS Score records.

## 2. LIMITED RANGES TO 100 YARDS/METERS

At Black Creek, Sulphur Springs and Bowmanstown, these ranges are only available to offer a 100 yard/meter match. These ranges will be allowed if they choose to, contest at the single distance twice within the same weekend (48 hour period) for a grand aggregate to score points towards shooter of the year. THIS WILL NOT COUNT TOWARDS ANY GRAND AGGREGATE RECORDS, ONLY FOR SHOOTER OF THE YEAR POINTS.

At any time during the year petitions can be signed and presented for consideration for either or both of these changes to become part of the Score Discipline in future years by a majority vote at or on the annual meeting in January 2022.

Thanks,

Score Committee
