

# **BENCHREST SEMINAR**

**April 6 & 13, 2019**

On April 6, 2019 Bob White and I will be hosting our annual Benchrest Seminar at the Cherry Ridge Gun Club in Highland Lakes, NJ. This seminar is a two-part class. You do not have to come to both parts but to come to the second class you must have attended the first. The first is held at the main club house meeting room. We will cover a variety of subjects from the history of organized Benchrest, to the style of rifles, basic reloading for these rifles, prep and care of the brass, bench setup and rests, tuning of your rifle and reading the wind with wind flags. There will be plenty of time for questions and answers.

The second session will be actual bench time shooting on the range. This date will be April 13, 2019. You will be given a choice of what style target you want to shoot at 100 yards. Either two Score or two Group targets will be made available. There will be some equipment available on a limited bases with a coaching staff to help you understand some of the techniques you saw the week before. Please feel free to bring your own rifle and rest. We ask you to make sure they are in safe operating condition and zeroed in for 100 yards. We require that you have eye and ear protection to shoot.

I would like to thank the product contributors for their generous donations that at this time is over \$1000.00 worth of products. Two of those contributors is Sightron Scopes and Capstone Precision Group the sole distributor of VihtaVuori powders and Lapua Brass.

This seminar has launched the successful Benchrest career of quite a few shooters that have went on to become regulars at our Registered Matches.

All level of shooters is welcome to the Seminars from the beginner to the seasoned shooter. The cost of the seminar will be \$10.00 for the classroom day and \$15.00 for the shooting day.

Please contact Bob White at The Shooters Corner 973-663-5159 or Harley Baker 610-496-6768
