Margin setup as below:

Instructions for 600 yard IBS program written by Mike McBride.

Most of these instructions and more notes are also shown on the right hand side of each page out of the print area. When entering target data I highly recommend printing the results after you enter each set of targets. This will make sure you have a hard copy of the data after targets are released and just in case there is a problem with the computer. Most of the pages and all important formulas are protected so that you can not change how the program functions. I also recommend saving often or turning auto-save on.

Competitor List	<ul style="list-style-type: none">- enter Range, date and match info in top left corner. This info is passed onto the other pages so you only have to fill it in once on this page- enter starting and ending bench numbers- enter bench rotation. If you are not rotating benches enter 0.- enter names in Light Gun column<ul style="list-style-type: none">- use button at top to copy names to HG column- If entering different shooter info for one bench now is the time to change one of the names- enter a Y if an IBS member in the "LG IBS" column and "HG IBS" column- Enter a "Y" in the LG and HG column if they are entered in that class- Once the number of relays are determined you can use the random sort button in the top right. This will distribute the shooters across all relays in a random order.- Shooters can be moved around or added after the sort has been completed to accommodate special circumstances. (ie. using same equipment for 2 people)-NOTE - when moving people after the sort make sure to move/enter the IBS/LG/HG info also- "Start new Match" button will clear all shooter info and target data so that you can start entering a new match
Bench Assignment	<ul style="list-style-type: none">- Enter target firing order in cells G6-J7- print and post
Light Gun Equipment	<ul style="list-style-type: none">- edit lists on right of page for quicker entry using the drop down menus- enter light gun equipment
Heavy Gun Equipment	<ul style="list-style-type: none">- enter heavy gun equipment. Drop down menus are linked back to the Light Gun page
Light Gun	<ul style="list-style-type: none">- enter target data- if you zoom in too much some boxes will show ## but will print correctly- save and print after each set of targets are entered- most of page is automatically filled in and calculated
Heavy Gun	<ul style="list-style-type: none">- Same as light gun page
2-Gun Overall	<ul style="list-style-type: none">- This page is automatically filled in and calculated.
printing	<ul style="list-style-type: none">- forms are created long to accommodate all ranges/situations so you will have to set the print area to only print the needed realy information- For submitting results it is best to "Print to PDF"- To use the "Save AS PDF" button you must create a folder c:\600YardResults that is not read only
Target Labels	<p>Labels are setup for 2" x 4" labels 10 per sheet you may have to change margin size for it to print correctly ** Frame # only works for no rotation, or shooting all LG then all HG using rotation. - any other rotation just ignore the frame# on the target labels</p>
Factory Gun	<p>This page is not linked to the competitor list so you must enter names manually Results must be printed seperately since most ranges do not use this page</p>

- total points had to be removed from 2gun page to allow one shooter to shoot relay 1 bench1 LG (101) while ano

Fixed HG count for # of shooters that was linked to LG on comp page.

Even without macros the program works for scoring. Just do not have random sort, or print to pdf button, or clear
